

WM. MOSHIER KILLED IN BUILDING CRASH Floors And Roof Fall As Walls Crumble

PAUL LABRASH SERIOUSLY INJURED

William H. Moshier was instantly killed when the walls of his two-story garage on Cedar street crumbled, letting down the ceilings and roof to the ground. Paul Labrash escaped death by a small margin, and three others averted injury by quickly making a dash for safety.

A second story addition was just about completed, over the back end of the Moshier garage, and Mr. Moshier, and Mr. Labrash were working on the roof. At about 3:30 p. m. Wednesday the south wall suddenly trembled and moved outward letting floors above and roof with their heavy steel trusses fall with a crash into the pit below. Mr. Moshier was at work in about the middle part of the structure and escape for him was impossible and he pitched down with the roof and was buried beneath a mass of cement blocks and steel girders and apparently was killed instantly. It was necessary for workmen to remove a heavy steel beam from across his chest, and one from across his legs. His body was considerably crushed and his skull fractured back of one ear.

Paul Labrash, who was working along the north side of the roof fell close to that wall and was seriously injured. One leg was fractured and also several ribs, and it is feared that there are other injuries. Masses of twisted steel and masonry fell all about him, and he was moved before he could be rescued and taken to Mercy hospital.

Working on the first floor were John Malloy, Albert Bentley and Robert Bancroft. How they escaped being crushed to death is a miracle. They say that when they heard the wall start to give away and the floor above coming down upon them they dashed for the nearest exits.

Bentley in some way managed to escape out of the building and was missed by the falling walls by a narrow margin. Malloy dashed toward the west wall but before reaching there he was imprisoned in a mass of steel girders. The strange thing is that he was not hurt except for a few scratches on one forearm. Bancroft threw himself along side of an empty oil barrel which afforded him safety and he too escaped without injury. However he lost his shoes and can't understand how they got off his feet, and he hasn't been able to find them.

The front part of the structure

that had been built for several years, was not much disturbed. That part is occupied as an office and supply room for the Moshier garage, and by Claude Cardinal, as a lunch and pool room. The occupants of these places, when the crash began, came out of the front doors like being shot out of a gun. At the time there were 8 or 9 men in the lunch room, several of whom were playing pool.

The rear part of the structure was built several years ago and is said to have been designed for a one-story building. Construction work on the second story was begun last year and, at the time of the accident, was just about completed. The back part of the structure was 75x90 feet in size. The floor and roof were supported by long girders with no center supports. It is the opinion of some that the original foundation was not strong enough to support the second story and roof, and as the weight continued to grow they began to be overtaxed and could not stand the strain. Mr. Moshier, who was a competent builder and contractor, did the construction work and evidently did not fully value the strength of the foundations and lower walls. It was intended to use the lower room for car storage and the top floor for tourist rooms.

Band Master Ed Clark says that he watched the work of construction as it progressed and at noon of that fatal day was on the roof of the building. He says that while there he could feel the building sway beneath his feet and decided that that was no place for him and came away immediately. It was only a few hours later that the tragedy that is here chronicled.

The north and part of the west walls continued to stand, although they leaned in dangerously. Workmen soon after pulled over the north wall to guard against any further danger.

Mr. Moshier is survived by his widow and sons, Harry, Charles, Russell and William, Jr. The time of the funeral has as yet not been determined.

MR. AND MRS. GEO. KRAUS ENTERTAIN

Mr. and Mrs. George Kraus were hosts to thirty friends at a keno party Saturday night. The affair was given to compliment their house guests, Mr. and Mrs. A. L. Weber, and Mr. and Mrs. Stearns of Chicago.

Prizes were received in fast rotation as cards were filled which caused much enjoyment. Late in the evening a very attractive buffet lunch was served.

Hugo Schreiber Passes Away WAS RESPECTED PIONEER CITIZEN

Hugo Schreiber died at Mercy Hospital Tuesday morning following a serious operation. He had been in feeble health for some time. Mr. Schreiber was past 84 years of age and had been a resident of this community since the year 1880. He was intelligent, honest, friendly, fair and always honorable. He and his good wife who survives him, and their fine family have been outstanding citizens in the community—there are none better. He had spent more than four score of useful years, most of the time in Crawford county, and it is hard to imagine a more ideal couple than Mr. and Mrs. Schreiber. Both have the respect and love of those who know them best. We learned to know them soon after coming to Grayling and we have always cherished the fine friendship there has been between us. We loved his ever kindly smile and his fine character, and we trust that they will ever remain a cherished memory.

Hugo G. Schreiber was born in Hohenstein-Ernstthal, Saxony, Germany, November 17, 1849. At the age of 21 he came to America. After spending some time in Hammond, Indiana and Chicago, he came to Jackson, Michigan. Here he was united in marriage to Agnes Asterie, Feb. 8, 1875. To this marriage were born seven children, Mrs. Pauline Erdmunde, of Frederic; Hugo Schreiber, Jr., of Roscommon; William, of Dearborn; Mrs. Rose Christenson and Mrs. Elizabeth Serven, Grayling; Herman, Long Branch, New Jersey, and George who passed away in 1903 at the age of 18.

In 1890 Mr. Schreiber came to Crawford county with his family, taking up the homestead where he has resided much of the time since, in Grove Township. The purchase of the place was located in Mr. Schreiber's home and he was appointed postmaster, a post he filled for 30 years, when it was discontinued. He made his last visit to his native land Germany, in 1897.

As one of the pioneers of Crawford county, Mr. Schreiber was a much loved and respected citizen and neighbor. He had discontinued active farming for the last several years, having had pneumonia, influenza, and two serious operations, succumbing to the last at Mercy Hospital June 5, 1934.

The funeral is being held this afternoon with services at Memorial church at 1:30 o'clock.

Frederic H. S. Graduates Eight

Frederic High school is holding its annual commencement exercises this week, when eight young men and women are to receive their diplomas, as follows: June Horner, who is president of her class together with Lillie Welch are the valedictorians and Erma Barber, secretary is salutatorian. The other members are Lillie Charron, treasurer; Vance Horner, vice president; Helma Corseut, Martha Vollmer, John Feldhauser.

Last evening the Class day exercises were held and following is the program, also the commencement program which will be held this evening.

Class Day
Processional—Miss Storck.
Instrumental Music—Trio.
Salutatory—Erma Barber.
Class Will—Helma Corseut.
Magazine Section—Lillie Charron.
Class Prophecy—Martha Vollmer.
Class History—John Feldhauser.
Instrumental Music—Quartet.
Valedictory—June Horner and Lillie Welch.
Commencement
Processional—Miss Browning.
Invocation—Rev. Salmon.
Piano Solo—Miss Storck.
Song—Margaret Worthy and Esther Hopkins.
Address—Rev. Salmon.
Presentation of Diplomas—C. S. Barber.
Benediction—Rev. Salmon.

Tooth Need Vitamin D
Foodstuffs containing vitamin D, such as fish, milk, yolks of eggs and animal fats, are essential to the production of perfect teeth, according to European scientists.

"Transit Bill" Plan Abandoned

MANY PROTEST USE OF SOUTH SIDE SCHOOL

Announcement of the acceptance of the Federal Welfare department to institute a "Transit Bill" in Grayling, using the abandoned south side school building therefor, met with considerable protest on the part of some of our citizens.

A protest petition signed by 139 Grayling citizens was filed with the School board, therefore a special meeting was called to be held at the school house Tuesday night for public discussion of the affair.

Francis Reagan, federal field representative for Michigan, and Russell J. Darling, federal field representative for the state transit bureau, were present. An effort was made by these men to prove that the use of the school building would prove to be of advantage and profit to the people of Grayling. The South Side school building hasn't been in use for several years, and while it was an excellent brick structure, it needed a new roof and many other repairs. This was to be done by the government. And the school was to derive an income of \$30.00 per month for the use of the building. Three local persons would be engaged for management of the billiard and besides it was estimated that from \$2,000 to \$3,000 would be spent monthly among our merchants for supplies.

Those opposed to the plan felt that the presence of a "transit bill" would bring an influx of tramps and delinquents and that this would be headquarters for tramps from everywhere, and that people wouldn't be safe on the streets. Also the sentiment against having a home here for tramps and for people who are on the welfare, was quite strong. And since these beneficiaries were to be employed on local welfare jobs, many felt that that would be taking work from local citizens.

Accordingly, since the sentiment seemed to be against the project, Mr. Reagan announced that they would withdraw their offer and consider the matter closed.

OVERCHARGING TOURISTS?

Mr. J. John Pope President of the Michigan Press Association, is one of a large number who have called our attention to the tendency in some sections of the state to overcharge tourists.

There is every indication that this will be Michigan's greatest tourist year. Early returns from our advertising campaigns already show that out-of-state visitors are beginning to come into the state earlier than ever and in larger numbers.

It is highly essential, if we expect them to return in future years, that every courtesy be extended to these people, that profiteering be eliminated, and that the greatest hospitality possible be shown these newcomers to our state. The tourist business, according to a survey of the U. S. Department of Commerce, conservatively estimates that seven million non-residents enter Michigan each year, spending a total of \$274,000,000 in this state. This survey, the first of its kind conducted by the Federal Government, was a most careful one, and consisted in the checking of entry entering the state on our main highways, reports from the books of hotels, gasoline stations, and resorts and other sources of information.

JOHN J. HIGGINS 88 YEARS OLD JUNE 6TH

According to the spring number of the Michigan History magazine, John J. Higgins of Frederic, was 88 years of age June 6th. In honor of the occasion a number of his Grayling friends remembered him with a basket of flowers. We visited Mr. Higgins Tuesday evening and found him as cheerful as ever, and grateful for the many years that God had afforded him. He still retains his interest in Crawford county, and enjoys relating interesting happenings of the yesteryears, in which history he had so prominent a part. For several years he purchased the lumber supplies for the Michigan Central railroad lines, and for the past quarter century has conducted a grocery store in Frederic.

He is held in loving esteem by his fellow townspeople and by many friends throughout the county. We are sure all will wish him many happy returns of the day, and many more birthdays to come.

23 To Graduate From G. H. S.

The last month of the school year is here bringing to twenty-three of the season's half their last days of High School. The dates for the graduating exercises are June 20, Class Day, and the 21st Commencement.

Following are the members of the class:

- Emil Kraus, president.
- Wanda Cardinal, vice-president.
- Virginia Engel, secretary.
- Matilda Engel, treasurer.
- Donald Kangas.
- Harold Koutter.
- Dale Parker.
- Robert LaMotte.
- William MacLeod.
- Charles Taylor.
- Robert Papenfus.
- Elmer Whitelee.
- Mabel Pankow.
- Arldith Dunham.
- Yvonne LaGrow.
- Helen Brady.
- Lucille Wheeler.
- Lucy Hulme.
- Grace Jones.
- Betty Deffrain.
- Frances May.
- Thelma Chappel.
- Elaine McDonnell.

Democrats Held Convention Sat.

JAS. McDONNELL, C. W. AMIDON ELECTED DELEGATES

The Democratic county convention for the selection of delegates to the pre-primary state convention to be held in Battle Creek June 19 and 20, was held in the court house Saturday. Delegates were present from Grayling and South Branch townships.

Charles O. McCullough, county chairman, acted as the convention chairman, and County Secretary Axel Peterson acted as secretary.

James McDonnell and Charles W. Amidon were elected delegates. According to Chairman McCullough, these delegates go to the state convention unopposed. It is understood, however, that they personally favor Judge Leary for governor.

Nagans Falls 30,000 Years Old
Nagans falls are about 30,000 years old, and at their present rate of recession they have a career of about 30,000 years ahead of them.

Over 7,000 Hear Fitzgerald Speak

Michigan Republicans stand ready today to unite behind the candidacy of Frank D. Fitzgerald. This was shown conclusively last Saturday when two former Republican governors, a score or more members of the Republican State Central Committee and over 1,000 citizens representing practically every county in the state gathered at Riverside Park in Grand Ledge, to pledge their allegiance to Mr. Fitzgerald in his campaign for the Republican nomination for governor.

Enthusiasm over Mr. Fitzgerald and the demand that the party present a united front during the fall campaign were the two outstanding features of the mammoth rally. And the crowd which took part in the old-fashioned rally and ox-roast left no doubt that Frank Fitzgerald can lead the party to victory in November. Over 2,000 automobiles and buses filled the park parking lot while estimates as to the attendance varied from 7,000 to 9,000.

The keynote of the meeting was sounded by former Governor Chase S. Osborn who was introduced by former Governor Fred W. Green who acted as chairman. "Let a united Republican Party rally around Frank D. Fitzgerald," Gov. Osborn declared. "If there is a united party in support of Mr. Fitzgerald he will be nominated at the primaries and he will bring victory to the Republican party and good, clean, economical government again to the State of Michigan."

Governor Osborn, who declared that he had traveled 1,500 miles to attend the rally, did not mince words in pointing out the defects of our present Democratic administration, but he devoted the major portion of his talk to lauding Mr. Fitzgerald. In this connection, he asserted:

"In Secretary of State Fitzgerald the party has a man who is of the younger generation; yet who is old enough to have passed through the sophisticated period of youthfulness; who is old enough for mature judgment and has a capacity for its exercise. His leadership is ideal."

Mr. Fitzgerald as a candidate for governor is not an accident. He has served an apprenticeship in government as a Republican from his boyhood until the present. In each position he has held he has earned the way to advancement. At no other period of his career is this more marked than at the present. His entire experience has equipped him to be as efficient and honest a governor as humanity affords."

Governor Green, as chairman commented upon the fact that over one-half of the counties in the Upper Peninsula were represented at the rally as well as all Lower Peninsula counties. In introducing Mr. Fitzgerald he gave his unqualified endorsement of the present Secretary of State and offered to assist in his campaign in "any way that I can be helpful and of the greatest assistance."

In the final talk on the program Mr. Fitzgerald thanked his "friends from all parts of Michigan" for visiting him in his hometown and then outlined some of his views on necessary changes in state government. He coined a phrase that may become a slogan of the campaign in declaring:

"Michigan needs actual, not oral economy." He stressed several times in his talk that economy in government must be actually put into effect, not merely discussed in generalities and in this connection came out strongly for a simplification of government through the consolidation and elimination of many needless boards and commissions and inspection services. Wasteful use of state funds contrary to law also drew his censure in the following words:

"I am in sympathy with the principle of Old Age Pensions and the necessity for raising revenue for the carrying out of the provisions of the law, but I have never witnessed a more flagrant misuse of public funds than has taken place in the administration of this act to date."

Mr. Fitzgerald then called for a revision of educational laws that will recognize the duty of the state to insure a full year's schooling for every child. Then he discussed the Democratic program of money-raising and declared flat-footedly for a return to governmental expenditures of ten years ago.

"While our state property tax has been lowered by \$20,000,000 we are now arising in its stead in the form of a sales tax, revenues which it is estimated will reach \$36,000,000, an estimated revenue of \$36,000,000 from the liquor tax and an undetermined amount from the head tax."

"During the past ten years of plenty our state, county and city governments have been burdened by many unnecessary expenses because of the insistence of minority groups. It is my belief after careful study, that our state government can be run more efficiently than it is today on the tax income of ten-years ago," he said.

Mr. Fitzgerald also showed his firm conviction that the present sales tax law must be "amended and modified" and he placed himself on record as favoring a "pay-as-you-go policy" for the state.

The rally started at noon with the ox roast while five bands and the Easton Rapids "40 and 8" drum and bugle corps provided music during the afternoon.

50 Pigeons Leave Grayling In Race

50 pigeons were liberated by E. N. Darveau, express agent Sunday morning in the race put on by the North Road Open Homing Club of Detroit. Some time ago Grayling was designated as one of the race stations to fly the pigeons from and Sunday was the date of the first flight.

The pigeons were shipped to Grayling from Detroit in a crate arriving on the morning train Sunday, and at 7:25 o'clock Mr. Darveau liberated them. He says they flew into the air and after circling around two or three times, headed south for Detroit.

On July 15 and August 28 there will be similar races.

BACK TRAILS

Back Trails is the title to a book written and published by Harry M. Myers and son William A. Myers, of Lapeer, Mich. This is a tale of "many a trek a-foot, a-mush and a-saddle" as told by the authors in "Copy to the city editor, in letters home, and in the story of a National Park Ranger."

Harry M. Myers, publisher of the Lapeer Press and is considered one of the out-standing newspaper men in Michigan. He loves the great outdoors and but few Michigan trails fail to record his footprints. The old AuSable has carried his canoe in both summer and in late fall, when camping along its banks challenges the most hardy.

We're indeed grateful to Mr. Myers and his son for an auto-graphed copy of their nicely bound volume, and we know we shall enjoy reading it.

THURSDAY, JUNE 7, 1934
 THE FIRE AT LAKE MARG-
 KETTE

The undersigned, in behalf of those who have cottages at McIntyre's Landing, at Lake Marg-kette, desire to express their most sincere gratitude and grateful thanks, not only to the C. C. C. men stationed at The Pines, but also to those citizens of Grayling who so valiantly lent their aid in combating the forest fire at McIntyre's Landing Tuesday, May 29th.

To the trained alertness and quick action of Jess Sales at the fire tower south of the lake, whose eagle eye first detected the blaze across the lake and rushed the message for assistance, this deep gratitude is also extended.

The voluntary aid of Grayling residents as well as the quick response to duty's call on the part of the C. C. C. men was a distinct and valiant service not only to those whose property interests at the lake were directly involved but the efforts of all these noble people was only another exhibition of the splendid manly meeting of a challenge, whereby a serious catastrophe might possibly have affected even Grayling itself, thru the ever present menace of forest fire which our people of this wonderful north country have always to hold in great fear.

Notwithstanding repeated warnings there are every now and then persons who still show a dangerous carelessness in throwing away still lighted matches and cigarettes. As we all know one such careless act recently caused the city of Chicago a ten million dollar loss, and had it not been for the splendid work of those who so nobly and willingly responded to Jess Sales' alarm on this occasion, a heavy proportionate loss might easily have fallen on some of our own neighbors and some of our own people.

So this debt of gratitude to those who so efficiently battled the flames at the Lake Tuesday and who proved their efficient mastery of the situation, is thus publicly acknowledged and it is trusted warnings will continue unabated to prevent the possibility of destruction which constantly menaces our beautiful woodland areas in this Michigan's most wonderful recreational setting.

Rev. I. E. Runk,
 Albert H. Wetz.

The Grange will give a bake sale at the Grayling Hardware Saturday afternoon, June 9. There is a contest on to see which one of the ladies is the best baker and there will be a large assortment of baked goods on hand. Be sure to visit the sale.

Camp Higgins

Lieut. and Mrs. M. C. Igloe returned the latter part of last week from their vacation into Texas and Mexico. Lieut. Katzman was acting district surgeon during Lieut. Igloe's absence.

A short course in geology began Monday night under direction of Raymond Taggart. Geologic conditions of this vicinity will be studied.

A. W. Cashmore, from the University of Michigan, is doing research work on fish in the lakes of this vicinity. He finds the work done by the CCC boys of this camp for fish protection to have been over 75 per cent effective.

"Mispronounced Words" is the title of the sermon given by Capt. E. W. Todd, district chaplain, this week.

Lieut. and Mrs. J. D. Hartley are enjoying a short honeymoon trip in Canada.

Capt. Murphy has brought his family here from Berrien Springs to enjoy a cottage on the lake during the summer months. Capt. Nester has also rented a cottage for the month of June.

Capt. Todd and Capt. Nester gave talks last week at Luzerne and Grayling, respectively.

PLANS MADE TO HIRE CARE-TAKER FOR CEMETERIES

A meeting of interested persons was held at the Court house last night to further plans to care for the cemeteries. A. L. Roberts acted as chairman and Mrs. Frank Barnett acted as secretary. The object of the meeting was to discuss plans for the hiring of a caretaker to look after the cemeteries for the summer months, but the matter still to be settled is how to raise the money.

With this in view it was decided to hold a mass meeting with the Grayling Township Board present, some evening of the forepart of the week to discuss this matter. So whether you are a lot owner or not please make it a point to be at this meeting. The date and place has not been decided upon but a notice will be posted in the Postoffice, so watch for it.

Grayling's cemeteries have been eye sores for years and it's high time that Grayling folks took a little more pride and saw to it that they are beautified and taken better care of. Cemeteries in most towns are the most beautiful spots and ours could be like-wise with just a little bit of effort on the part of everyone.

FREE METHODIST CAMP MEETING

There will be a Free Methodist camp meeting for the Alpena District held at the Fred Quiklinski's grove, 5 1/2 miles south of Cheboygan on U. S. 23, beginning on June 15th and continuing to June 24th.

For further information address Rev. Ellery Broadway, Cheboygan, Mich.

Little Bobby Nelson, son of Mr. and Mrs. Tracy Nelson, has been quite ill at Mercy Hospital following a serious appendix operation.

News Brief

William Hill returned last night from New York, where he had been on business for the Kerry & Hanson Co.

Ross Hoyt, Glenn Beckwith, Clay Phelps, and Loren Mathews of Jackson, are busy installing a burglar alarm in the local Liquor store, for the Electro Tear Gas Corporation.

Mrs. Paul Dreher and children returned to their home in Detroit Monday after visiting here for a few days with her mother, Mrs. Alex LaGrow. She was accompanied by her nephew F. J. McClain, who will visit there.

There will be a regular meeting of the Eastern Star Wednesday, June 13. A report of the Wolverine Association meeting at Alpena will be given by the representatives of the local chapter, Mrs. Barnett, Mrs. Matson, and Mrs. Fehr. They report a good time.

William J. Heric was dismissed from Mercy Hospital Tuesday evening after being there for several days. He had taken suddenly ill last Thursday noon on coming home from work and was taken to Mercy Hospital for treatment. He is beginning to feel quite well again.

The Ladies Auxiliary of the Golf club met for their pot luck luncheon Wednesday afternoon. Mrs. Roy Milnes conducted a short business session at which some projects for the year were discussed. At the golf game which followed, Miss Margrethe Hanson held the low score.

CAMP PIONEER

Lieut. G. M. Katzman left Saturday morning for Chicago, his home town, to spend a two weeks' vacation. He expects to spend some of the time at the Century of Progress.

Fifteen new enrollees were received the latter part of last week, most of them coming from Lake City and vicinity.

Mosquitoes for the past ten days have made camp life disagreeable and are also bothersome on the work projects. Most of the men sleep under mosquito bars.

Pay day was last Thursday, which is about the most interesting even of the month in a CCC camp.

Educator Lloyd Mount of the Houghton Lake camp was a visitor here last Thursday.

Mr. Hanson, former general foreman at Co. 1611, has gone to Camp Conisto, Co. 689, near Munising, as camp superintendent. A new general foreman will be on the job here shortly.

About 30 men will be leaving this company at the end of June, all of whom were enlisted some time during June of last year. It is the policy of the government, then, to limit enlistments to one year, so that benefits of the CCC may be spread to a greater number of men.

Shoppenagon is driving a new Ford coupe.

Mr. and Mrs. Selwyn L. Dexter and son, Harry of Hart, Mich., were in Grayling over last night visiting Harry Sheehy and other old friends of the former. The Dexter family, who resided here, left Grayling 28 years ago and this is Selwyn's second visit back. He is superintendent of the Hart plant of the W. R. Roach & Co., manufacturers of the Hart brand canned goods.

Grayling Lodge I.O.O.F. will hold their annual memorial on Sunday, June 10th. Members will please meet at the hall at 9:30 a. m. and attend services in a body at Michelson Memorial church at 11:00 a. m. Exercises will be held at the cemetery after the church service. A general invitation is extended to all Odd Fellows.

One of the trucks of the Ray Short Carriage Company coming from the north, ran off the pavement on US-27 at the intersection of Lake street at midnight Monday. It crashed into a telephone pole and ran half way across the vacant lot there before it was stopped. Mike Hillman who was the driver, escaped without a scratch. The impact broke off the pole bringing down the wires for some distance.

You remember last Friday, when the mercury registered 103 in the shade, well that's the day that the Seniors chose for their annual "Skip" day. To say that they enjoyed the trip immensely would be telling a falsehood as it was so hot one couldn't be comfortable anywhere. The trip took them to Traverse City where they visited the several places of interest. They were accompanied by Mr. Cornell, leaving Grayling during the early morning and arriving home at near midnight. Despite the fact of the extreme heat it was their "Skip" day, and will hold sweet memories in the years to come.

Mr. and Mrs. O. P. Schumann were in Midland Saturday in attendance at a meeting of the summer outing committee of the Michigan Press association. With them were Paul MacDonald of Gaylord and Mr. and Mrs. D. E. Matheson of Roscommon. Thru courtesy of Editor Phil Rich of the Midland Republican the visiting publishers were privileged to see the new army and navy and National Geographic stratosphere ball that had just been finished by the Dow Chemical Co. This sphere will be transported to Montana for a flight thru the stratosphere by army flyers. It's a huge affair and built entirely from Dow metal, a substance lighter than aluminum and stronger than steel.

Several people were injured early Sunday morning in an auto accident that occurred about 2 1/2 miles east of town on the down river road. The accident happened when Pete Seera and a party returning from the dance at the Hayloft struck the car of Frank Bridges, that was parked in the road. He having trouble with his engine and on his way home from Grayling. The Seera automobile containing seven people turned over four times and Mrs. Laura Welch and Mr. Seera, who received some bad cuts and bruises were taken to Mercy Hospital and had their injuries taken care of. The rest of the party, Marleah Kochanowski, Wilbur Swanson, Ben Darroch, Louis Ward, and Wesley Sammons, escaped with minor injuries.

Coming To Grayling

Shoppenagon's Inn

Wednesday, June 20

ONE DAY ONLY

Hours—10 A. M. to 4 P. M.

Dr. Wm. D. Rea, specializing in internal medicine, treating diseases without surgical operation, has been visiting Michigan professionally for many years and has a large individual practice in the State.

Dr. Rea specializes in stomach, liver, bowels, kidney, and bladder diseases as complicated with other diseases. Has to his credit many satisfied results in stomach ulcer, liver, gall bladder, colitis, chronic appendicitis, kidney, bladder, skin, heart, lungs, bronchial diseases, asthma, glandular diseases.

Dr. Rea uses the hypodermic injection method for small tumors, suspicious skin growths, piles, fistula, varicose veins, tubercular glands, and ruptures. Has a special diploma in diseases of children, treats bed-wetting, slow growth, deformities, large and infected tonsils.

Dr. Rea has had the advantage of European and American training and has practiced his profession continuously for many years. Consultation and examination free, medicines and appliances at reasonable cost where treatment is advisable. Remember the date and bear in mind that his treatment is different.

Married women come with husbands, children with parents.

Dr. W. D. Rea Medical Laboratory, Minneapolis, Minnesota. Since 1898.

CHEVROLET

ANNOUNCES SUBSTANTIAL

PRICE

REDUCTIONS

On all models of

Chevrolet passenger cars and trucks

Reductions amount to as much as \$50 on some models

Chevrolet's reduced prices reflect the record-breaking demand that, month after month, is keeping Chevrolet first in sales.

In offering these exceptional values, Chevrolet hopes to maintain, during the balance of the year, the high level of employment so necessary to the general program of recovery.

Chevrolet is particularly glad to make

this announcement when you can see and judge the Chevrolet at the National Exhibits of General Motors Products. Make it a point to look over these cars. Compare its modern features and new low prices with those of any other low-priced car. Then you will know even more surely than before why we say, "Drive the Chevrolet only 5 miles and you'll never be satisfied with any other low-priced car."

**SHE LOST FAT
High Blood Pressure**

Here's Today's Live News
For Fat Women—And Men, Too
Read It—Please.

"I have been taking Kruschen Salt for nearly a year for my health, and for high blood pressure and rheumatism and it helped both. My blood pressure was as high as 200 when I started to take Kruschen. I weighed 255 and now I weigh 214 that is losing 41 lbs. in about nine months and I feel fine. Wouldn't go without Kruschen Salt in the house," Mrs. W.

Eckoff, Saginaw, Mich.

Besides melting away ugly, excess fat Kruschen constantly keeps the bowels regular and free from waste that is always apt to poison the system.

Fat folks should give Kruschen a month's trial—it never disappoints—you'll feel so much better after taking one inexpensive jar which you can get at Mac & Gidley's. Keeps you cooler in hot weather.

San Heats Water for Laundries
Soviet scientists set up a boiler at Tashkent which is heated by the sun's rays. The apparatus, however, has the purpose of heating water for laundries and for outdoor bathtubs.

POTPOURRI**Snake Venom**

The poison which venomous snakes produce is produced in the glands which correspond to the ones in front of the human ear. It goes through small channels to the fangs and when the snake bites a small portion is forced into the victim's body. These same glands in non-venomous snakes look the same, but produce no poison.

Goldfish First in U. S. in 1893
Goldfish first were brought to the United States about 1878.

**RECORD CROWD
SEES NEW FAIR**

Street of Villages Gets
Big Play: Lights
All New.

Chicago.—More than 235,000 persons saw the new World's Fair here on its first week-end. A record opening day crowd of 134,003 Saturday, May 26, surpassed last year's opening day figure by 34,958. The following day's crowd of 81,241 was greater by 22,567 than the same day in 1933.

President Roosevelt, through the medium of a motion picture shown at several points on the grounds, officially opened the Exposition. As he closed, an electric switch the new lights blazed forth for the first time.

Visitors were surprised to find the Fair complete, and fully up to the promises made that it would be new.

Lighting Trace Sky Ride.

Mrs. Franklin D. Roosevelt, first lady of the land, inaugurated the outstanding new feature, the world's largest fountain. Like the President she appeared in a motion picture. At a magical wave of her hand, the giant waterpumps rose from the north basin, licensed by a play of colored light.

Lighting, the most talked of thing about the 1934 Fair, revealed wonders never approached, on the 1933 opening night. Co-ordination of lighting and color were more in evidence. Under the lights, the new Century of Progress purple-red, these color of the new Exposition, presented a glowing beauty that was different. Buildings, grouped with respect to color in light as well as color in paint, revealed a new harmony.

The Sky Ride, almost lost to vision at night formerly, greeted visitors with all its customary system of light. Bright red neon tubes outlined the observation platforms 628 feet above the Fair. Farther south, from the rotunda of the Ford building, a pillar of blue light, 200 feet thick and more than a mile high, pierced the clouds overhead. The lighting load of this new, four-story building is more than one-third the total load of the entire Fair of last year.

Foreign Villages Popular.

New lights in the lagoon and a new "Ancora" fountain at search lights at the north end of the grounds, complementing that at the south end, illuminated the major changes in the new time illuminating.

Mecca for the opening day throng was the new Sky Ride. The "tour of the world in a single day" offered by the "Hill" reproductions of far-away lands in the new Fair proved to be an idea that "clicked."

Eleven of the foreign villages are grouped together where the Midway was in 1933. Here are an Arab village with the atmosphere that was known by the ancient Phoenicians who met in Tara Hall; the Spanish village, largest ever built for any Fair; Tunisia, the "Land of the Medonians"; the Italian village, with its leaning tower and time-worn Roman ruins.

Free Entertainment.

Visitors saw the "Tower of London" and watched Shakespeare's plays presented in a reproduction of Shakespeare's original Globe theater in the English village; saw ice-skating under the summer sun in the German Black Forest village; saw Old North Church, Mount Vernon, and the home of Paul Revere in the American Colonial village; relaxed in the luxury of a North-African desert village in the Oasis; thrilled to the charm of native folk dances in the lovely Belgian village, and entered the gaiety of Montmartre in the Streets of Paris.

Elsewhere on the grounds they found a Dutch village, a Mexican village, a Swiss village and the Streets of Shanghai.

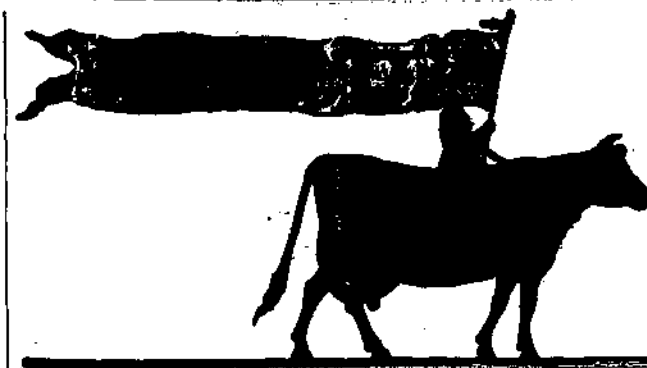

Free entertainment projects caught big crowds. Among them were the concerts on the Swift bridge, the spectacular lion and tiger show in the Standard Oil amphitheater, the circus of the Lagoon theater, the seeming miracles performed in the Science theater and the many shows presented by exhibitors in the various exhibit buildings.

Fair Better Most.

Opening day throngs found that no exhibits remaining from last year were unchanged. Animation has been added everywhere. The Ford "exhibition" altogether new, is a world of motion, showing the manufacture of virtually every part that goes into a motor car. Armour and company and Wilson and company, packers, have done much the same with their exhibits; so have the Continental Baking company, Hiram Walker, the Brook Hill dairy farm and others new to a Century of Progress.

Perhaps most important of all, visitors found the new Fair a better host. Fifty percent of the tickets are free, transportation and restaurant prices are lower and there are more free resting places for the weary. Most of them, where free entertainment is in progress.

(By Arthur Glidden, County Agricultural Agent)

**GRASSHOPPER POISON FREE
TO FARMERS**

Although the dry weather is favorable for the development of grasshoppers it looks as though they would have a hard time of it this year, as the Federal government is supplying the counties in Northern Michigan with bran and sodium arsenite to be used in the control of these pests. 45 tons of bran and 500 gallons of sodium arsenite have been shipped to the County Agricultural Agent to be used in combating grasshoppers in Otsego, Crawford and Montmorency counties. Each county is to furnish the molasses, salt and banana oil necessary to make the completely mixed bait. The mixed bait is to be furnished to the farmers without charge.

Experience has shown that the bait furnished is very effective in the control of grasshoppers. It is not only a poison that kills the insects, but is pleasing to their taste. The banana oil is added to the mixture to attract the hoppers to the bait.

In using the poison bait the farmer should take precautions to insure against killing livestock or chickens. If the bait is spread thinly, at the rate of 10 pounds per acre there is little danger of poisoning poultry or livestock. At the Upper Peninsula Experiment Station at Chatham sheep have been pastured in the fields on which the poison had been spread. In no cases were any sheep poisoned. The main thing to keep in mind to prevent poisoning of livestock are to spread the bait thin, and to avoid letting the poisoned bait fall on the ground in small lumps.

**FARMERS CAN PLANT ALL
FORAGE CROPS**

Drought conditions have caused the modification of federal rulings concerning the planting of forage crops on both contracted and non-contracted acres in Michigan, according to Chester C. Davis, administrator of the agricultural adjustment act.

These modifications apply to lands affected by either wheat or corn-hog contracts in Michigan. At least 30,000 Michigan farmers can now plant forage crops in larger amounts than was possible under contract terms previously in effect.

Mr. Davis says, "All restrictions are removed on the planting of and harvest of any forage crop on non-contracted acres on farms under adjustment contracts."

"Restrictions on the use of the contracted or rented acres, which

have been retired from crop production under the contract, are also modified to permit the planting and harvest of all forage crops except corn and grain sorghums and to permit pasturing these retired acres and harvesting hay for forage for them.

"The action in modifying contract planting restrictions supplements plans for the purchase of surplus cattle in the drought regions and other drought relief measures."

Emergency crops recommended for use in Michigan by the department of farm crops at Michigan State College include Sudan grass, soy beans, and fodder corn. These crops can be sown until June 15 with the prospect of crops of forage with average weather conditions.

Sudan grass can be seeded for summer pasture. Plantings made by June 10 will be ready for grazing in four or five weeks after seeding. The normal amount of seed per acre is 25 pounds. Sudan grass can be pastured until frost, or it can be cut for hay. It is about the same as timothy in feeding value but it is liked better by animals.

Soybeans can be planted in rows 28 inches apart or broadcast at rates of seeding are 30 pounds per acre in rows or one and one-half bushels when broadcast. A mixture of six or eight pounds of Sudan grass with the broadcast soybeans helps the beans smother out weeds.

Fodder corn drilled at the rate of 15 or 20 pounds to the acre produces a heavy crop of feed. This crop outyields either of the other two and seed is usually readily available and reasonable in price.

Weather injuries to pasture and meadow crops are already severe enough to warrant the planting of one or more of these three emergency crops on most Michigan farms. Immediate rains can not repair the damage done so that a real crop of forage can be harvested.

Temperatures during May averaged 3.5 degrees above normal at the East Lansing Weather Bureau. This excess was attained in spite of the fact that frosts occurred on five days. Sunshine was 75 per cent of the amount possible and 10 per cent above normal. Total rainfall was 1.33 for the month, 2.11 inches below normal. The total rainfall deficiency for the first five months in 1934 is 4.70 inches.

Special Bulletin No. 150 published at Michigan State College gives full descriptions and directions for growing all emergency hay and pasture crops.

**CURIOUS NEW DISCOVERIES
ABOUT SLEEP**

An article pointing out that it is not how long you sleep but how well you sleep that counts, appears in The American Weekly with next Sunday's Detroit Times.

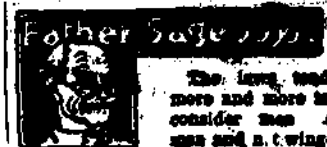

The article reveals many facts the sleeper never knows about.

Printed Cook-Book Dated 1475
The first printed cook book appeared in Venice in 1475, but a handwritten cook book of 1390 is an earlier work known.

Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES OF THE AVALANCHE OF 23 YEARS AGO

F. L. Michelson, Christ Johnson and T. W. Hanson were looking for the first part of this week-end of Gaylord.

Frank Mills being short of customers and wishing to keep his hand in, stuck his thumb into the dried-beef slicer and clipped off the end.

O. F. Barnes of South Branch will entertain Marius Hanson, T. W. Hanson, Holger Hanson and other friends over Sunday at his beautiful club house on the river. The gravel road running directly west to Portage Lake is fast nearing completion, and when finished will be a nice straight piece of road. This work going along nicely under the able supervision of F. O. Peck.

Roy Barber, Thos. Shaw, Walter Hanson, George Langevin and Otaf Michelson have new houses under way. We also note some new homes going up on the south side and at "T" town.

R. Hanson & Sons are building a fine new planing mill at "T" town. The foundations are of solid concrete. The frame is up now and the building will be enclosed in another week. R. Hanson & Sons expect to have the new mill running full blast not later than August 1st.

R. Hanson left Thursday noon for Detroit enroute to Denmark. Mrs. R. Hanson, Mr. and Mrs. J. K. Hanson and Miss Miriam Johnson and mother met him in Detroit Saturday, and they all left on the fast train the same evening, arriving in New York Sunday morning. Tuesday they sail from New York and will be abroad three months.

Mr. and Mrs. Jas. Olson have moved into their beautiful new home at "T" town. Jimmie likes to be right on the job so has moved nearer to his work.

Grayling is booming these days. We notice a great many foundations for new homes. There are not enough houses here yet to go around, so let the good work go on.

O. S. Hawes chaperoned a party of lumbermen down the river last week for a few days stay at one of the cozy cabins of Henry Stephan's. While in the city they were the guests of T. W. Hanson.

The Loyal Americans, Bay City's fast amateur ball team crossed bats with our local club Saturday and Sunday of last week. Saturday's game scored 4

to 3 in favor of Grayling. Sun game was stopped after the 13th inning, on account of the rain, the score standing 4 to 4. Joyish Vincent Miller died May 21 at Lovells. He came to Grayling about 18 years ago, living here about 11 years, and the remaining 7 years were spent on his farm near Lovells.

Frederic Flashes (23 Years Ago)

All of the people of this place were much surprised when they awoke last Sunday morning and found our mill burned to the ground. It was built 11 years ago by Henry C. Ward, and had since passed into the hands of the Walsh Manufacturing Co., of Pittsburgh. The night watch had cut off all steam to cool off the dry-kiln. At 4:30 they went to raise the curtain to allow the heat to escape in preparation to clean the building, when the flames burst right into their faces. They tried to sound the alarm, but were unable to turn on the whistle; hence, the surprise. C. Corgans and N. Meager lost all their carpenter tools. The total loss or amount of insurance is not known at present.

Last week while playing ball, H. Gorgens had the misfortune to break his leg.

Mrs. George Burke started for Seattle, Washington last Thursday.

Mrs. N. Fisher is on the sick list.

Lovells Locals (23 Years Ago)

Fishermen are not so numerous as they were; only one or two at a time at the Douglas House. Miss Owen with her brother Charles and Newell Underhill spent decoration day at Grayling and report a splendid time.

Charles Miller returned to his old home and expects his mother will reside with him.

Mrs. C. Stillwagon has gone to Grayling for a visit with Mrs. John Schram.

J. J. Kennedy has returned home from Detroit.

The nice garage is nearly completed and is quite an acquisition to our town.

Joe Simms is doing his best as commissioner to improve the roads through this district.

George Owens is trying to have a model farm here this season. He is working hard.

Homemakers' Corner

Michigan State College
By Home Economics Specialists

Vacationing in sparsely settled regions means the careful planning of food supplies to ensure the right quantity as well as the right kind, according to home economics nutrition specialists of Michigan State College.

Dried or canned fruits and vegetables are necessary when going too far from gardens and orchards. Dried prunes are an old standby. Dried apricots and dried apples, when available, are also suggested. Canned tomatoes should be included once a day in the menu, always using the vegetable as soon as possible after it comes out of the can. It is well to remember only to heat the tomatoes through instead of cooking them for a long time, as this destroys the scurvy preventing vitamin.

All kinds of dried beans as well as peas are suitable for hearty camp meals. Eggs are a problem because they are bulky and hard to carry. Powdered egg, which is caused by commercial baking firms, is suggested and may be used in many ways, in preparing camp dishes.

Dried milk will be found to be splendid for cooking, and it carries easily and is quite inexpensive. If the local grocer does not carry it, inquire at the plant where milk is pasteurized. During the summer months, they will very likely be drying the excess supply of milk and it may be procured at a reasonable price.

Queer Music

By simply manipulating his hands in the air, Charles Stein plays music on the thearmin in the Science theater at the new World's Fair in Chicago.

DEPT. OF STATE

STATE NEWS BULLETIN

An attempt to drastically reduce present automobile weight taxes was indicated last week when the Department of State was asked to approve the form of a proposed constitutional amendment.

The proposal, which will be voted upon at the November election if sufficient signatures to the petition are filed with the department, would reduce weight taxes on passenger vehicles to \$3 per year and to \$5 for each commercial vehicle.

The proposed amendment is being sponsored by a group of Jackson citizens.

At the present time the Department of State is issuing 2,400 motor vehicle operators' licenses and 410 chauffeurs' licenses a day. Under the operators' license law which became effective May 1, 1931, approximately 700,000 licenses will expire before Jan. 1, 1935. It is important that these licenses be renewed as penalties for failure to be properly licensed are greatly increased under the financial responsibility act.

Inquiries reaching the department indicate that only a small percentage of motorists realize that it is necessary to report changes of address to chiefs of police or sheriffs.

Department of State statistics indicate that as many motorists will take advantage of the two-payment plan of purchasing 1934 license plates as in 1933.

Last year a total of 415,000 persons purchased plates by making two payments. Thus far in 1934, a total of 352,000 have made use of the windshield stickers and it is estimated that at least 65,000 more will do so before August 1. This year a large number of cars that have not been used for one or more years are being placed in service.

"British"

Seen at the fashion promenade of the Dress Operators' League of America in New York was this symphony in brown and white called "British ladies." It is a summer costume consisting of a white linen crash three-quarter-length coat, brown linen shirt, linen tie and brown felt hat.

The Glory of the Commonplace

By LEONARD A. BARRETT

Some one has said, "Genius is nothing else than the power of seeing wonders in common things." The elemental things of life are of the greatest value. They are the fundamental realities upon which success and contentment ultimately depend. Many of the most commonplace things escape our notice because we do not possess that fine inner sense of perception which Tennyson expresses in the lines—"Flower in the crannied wall, I pluck you out of the crannies. If I could understand What you are I would know what God and man is."

Beauty is not something added to an object from the outside. The power to see beauty must first reside within ourselves. If we would see the glory of the commonplace, there should be cultivated an inner power of observance. "Look at a tree until it appears to you just as it appears to every one else; then look at it till you see what no man has ever seen before."

The glory of the commonplace is also evidenced in the response which is heartily given to the appeal of music when expressed in songs which reach the heart direct, like "Home, Sweet Home," "Nearer, My God, to Thee," "Last Rose of Summer," "My Old Kentucky Home." The same is true in poetry. The poems which we can recite from memory are those which reflect the common experiences of our daily life. The greatest satisfaction which can come to one is one's ability to get out of elemental things new beauty, power and strength. Helen Keller is quoted as having said, "If I had but three days to see, I would stand at a busy corner and merely look at people, trying by signs of them to understand something of their daily lives. I see smiles and I am happy." Edward MacDowell, in his "Ode to an Ancient Pine," writes: "O giant of an ancient race, he stands a stubborn sentinel O'er swaying, gentle forest-trees That whisper at his feet."

Science gives first place to the consideration of common things. The smallest particle of matter contains the ultimate truth as evidenced in recent research in the field of atoms, molecules and electrons. Browning writes, "We find great things are made of little things—And little things go respecting till at last comes God behind them. . . . The small becomes the dreadful and immense."

Use for Cellulose

The first chemical uses for cellulose were those where it was combined with nitrogen to form cellulose nitrate. By varying the amount of nitrogen, chemists obtained a wide variety of products. If a large proportion of nitrogen was used they obtained smokeless powder. With a medium proportion the quick-drying lacquers for automobiles and similar products were developed. Using only a small amount of nitrogen to large amounts of cellulose, the chemists produced celluloid for motion picture film, toilet articles and a multitude of molded toys.

Reversing the old order, what we need now is labor-saving, not labor-saving devices.

Mother's Cook Book

SEVERAL GOOD THINGS

FOR a warm day try the following cooling and delightful dish: Jellied Consomme.

Dissolve two tablespoonsful of gelatin in one-fourth of a cupful of cold water. Dissolve in one quart of hot consomme. Pour into a shallow pan and when chilled cut into cubes or beat with a fork before serving in the cups.

Cucumber Jelly.

Grate enough peeled cucumbers to make a pint, season with salt, pepper, paprika, olive oil and vinegar—two of oil and one of vinegar. Add one teaspoonful of gelatin softened in two teaspoonfuls of cold water, dissolve over hot water until soft, then add to the cucumber and mix well. In the bottom of each individual mold, place a half walnut, meat, then pour in the cucumber mixture. Serve turned out on lettuce leaves and top with a teaspoonful of mayonnaise. A little grated onion added to the cucumber will improve it for most people.

Melba Pastry.

Take one cupful of oven-dried crumbs, when a golden brown put through a food chopper. Mix well with one-third of a cupful of sugar, one teaspoonful of cinnamon and four tablespoonfuls of butter. Line a large pie plate with the mixture and bake in a slow oven for 20 minutes. Allow the crust to cool, then pour in the cooled filling.

Banana Custard.

Slice three ripe bananas. Cook two beaten eggs, one-fourth cupful of cake crumbs and one cupful of milk two minutes or until the custard lightly coats the spoon. Add two teaspoonfuls of lemon rind and stir in the bananas. Pour into a greased baking dish, set in a pan of hot water and bake until the pudding is set. Cover with a meringue and brown.

Deviled Crab.

Melt three tablespoonfuls of butter and two tablespoonfuls of flour and when well blended add one cupful of thin cream, one teaspoonful of paprika, a dash of cayenne, two egg yolks, two cupfuls of crab meat, one-half teaspoonful of lemon juice, two-thirds of a cupful of buttered bread crumbs. Mix and cook three minutes, place in a buttered ramekin and cover with buttered crumbs. Place a thin slice of lemon on top of each serving. Bake until brown. Garnish with parsley.

Do You Know—

That in its beginning the American newspaper was a very small affair. The Boston News-Letter, one of the first newspapers published in America, April 24, 1704, was printed on half a sheet of paper 7 1/2 x 12 1/2 inches. It contained one advertisement—that of the proprietor.

STRONGER BUSINESS AND STRONGER BANKS

By F. M. LAW
President American Bankers Association

DURING the crisis when confidence was shattered, bankers were properly concerned in liquidating their assets. Their main thought was to prepare to meet any demand for withdrawal of funds. They were more interested therefore in collecting loans than in making them. For this they cannot be justly blamed. It was a proper procedure.

Now that confidence has been so largely restored banks will naturally resume a more normal lending policy. This does not mean that they will or should extend loans or unsound credit, but that in the utmost good faith bankers will perform their proper part in recovery by a sympathetic and constructive attitude in the making of sound loans. Nor should commercial banks make capital or long-time loans for the reason that their loans are made from funds derived from deposits payable for the most part on demand.

When the return of confidence is further on its way, business men will find need for credit in making their plans. These good borrowers, who for the most part have been so conspicuously absent from the market, will return. They will be warmly welcomed by the banks.

Business Men's Fears
Business men have not yet laid all their fears. They worry about what Congress may or may not do, they concern themselves about a trend toward control of business by government. The fear taxes beyond their power to pay. These are real sources of worry and when they are reassured along these lines they will be more inclined to take a fresh look at the future and to make plans to go forward.

As a matter of fact there are tangible evidences of recovery. The Federal Reserve Board officially has stated that prices, wages, business activity and production were back to the highest peak since early in 1931. Commercial failures in the United States are being cut almost in half as compared with the same period last year. It has been reported that the decline in export and import trade was definitely checked in the middle of 1933 and replaced during the last half of the year by a substantial recovery movement.

Among favorable factors is the improved condition of the banks. It is doubtless true that the banking structure of the country has never been in a sounder, stronger and more liquid condition than it is today. My authority for that statement is the Controller of the Currency. No longer is their any fear of thought of bank runs. Depositors once more know that their money is safe and the banker, three armed in the knowledge of his own strength, is looking forward.

Training for Bankers

The American Bankers Association has been active for many years training young men and women in order that they may be duly qualified for the business of banking. Standard courses are furnished with able and experienced teachers. This work is done under the direction of the American Institute of Banking Section of the association. Over two hundred chapters, or local banking schools, are in active operation throughout the country and thousands of the younger generation of bankers are being graduated each year. These students are taught not only banking practices and policies, but they are also well rounded in the highest ideals and standards of business ethics. A proposal is now under consideration to establish a central school, which will offer advanced or graduate work to a selective list taken from those who have completed the standard courses.—F. M. Law, President American Bankers Association.

Banks Repaying Loans From R. F. C.

Although banks and trust companies have been the largest borrowers from the Reconstruction Finance Corporation, they have exceeded all other classes of borrowers in the rapidity of their repayments. Since the inception of the R. F. C. in February 1932, loans have been authorized by it to 7,086 banking institutions in the amount of \$1,995,000,000. Of this sum \$442,000,000 was not taken by the borrowers, the actual advances being \$1,553,000,000. Repayments against these advances through April 30, 1934, aggregated \$935,000,000, or about 60 per cent. The ratio of repayments for all classes of borrowers has been only about 27 per cent. These rapid repayments by the banks are taken by competent observers as a strong indication of returning normal financial and banking conditions.

Fireworks Thrill World's Fair Crowds

Brilliant fireworks displays are a frequent night feature at the new World's Fair in Chicago. The opening day crowd was surprised to find the Fair complete.

Why Fuss?

The old lawn mower worn out, refusing to function, doing a poor job of cutting, isn't worth fussing with when you can get a new one at such little cost. They make the grass fly and are easy to operate.

And throw away that old, patched garden hose and buy some of our brand-new stock of Good-year Rubber hose.

Miss Anna Nelson, of Grand Rapids, spent the week-end visiting her parents, Mr. and Mrs. Julius Nelson.

Keith Forbush, principal in the schools at Pickford, has arrived at his home in Frederic for his summer vacation.

Mr. and Mrs. William Weiss had as guests Sunday Mr. and Mrs. Henry Meyer of Detroit and Ed Becker of Saginaw.

The Danish Ladies Aid society will hold a bake sale at the Schjotz grocery Saturday, June 9, beginning at 2:30 o'clock.

Harold Eugene is the name of the 7 1/2 pound son born to Mr. and Mrs. Harold J. Trahan (Alyce Mahneke) of Saginaw on May 31.

Mr. and Mrs. Thomas Speights returned to Detroit Monday after visiting the latter's parents, Mr. and Mrs. Herman—Bidvia—for a week.

The regular meeting of the Women's Home Missionary society will be held at the Parsonage Wednesday, June 13th, at 2:30 o'clock.

Mr. and Mrs. Thomas Brennan and baby of Saginaw stopped in Grayling Sunday for a short visit with the John Brady and B. J. Callahan families.

Mr. and Mrs. Grant Zickgraf, of Atlanta, Ga., visited Mr. and Mrs. B. A. Cooley Tuesday.

Mr. and Mrs. George Sorenson attended the funeral of Mr. Paul in Detroit Wednesday.

Rummage sale Friday and Saturday in basement of Michelson Memorial church, by Ladies Aid.

The Grayling 6c to \$1.00 Store has a brand-new good-looking awning.

Leonard Elliott, mess sergeant of C.C.C. 681, left Monday to accept a position in Allegan.

Capt. and Mrs. L. A. McKenny were guests at the Richard Johnson cabin, down the river, Saturday.

Rev. and Mrs. I. E. Runk, of Grand Rapids, spent the week-end at their cottage at McIntyre's Landing at Lake Margrethe.

Mr. and Mrs. Clare Smith and children and Miss Ruth McNeven spent the week-end visiting relatives and friends in Lansing.

Mrs. Nestor and two children arrived Sunday from Detroit and will spend the summer at Higgins Lake. Capt. Nestor is located at Camp Higgins C. C. 672.

The date for Miss Tannev to be here to give permanents at the Betty Mae Beauty Shoppe has been changed. She will be here Monday, June 11 instead of the 14th.

Mrs. C. R. Keyport and daughter Jayne left Monday to spend a few days in Detroit. They were accompanied by Dr. Keyport who will attend a meeting in Ann Arbor.

A party consisting of Mr. and Mrs. Dan Babbitt, Mr. and Mrs. Ernest Borchers, Mr. and Mrs. George Hilton, Mr. and Mrs. Carl Hanson, all of Grayling, and Mr. and Mrs. B. F. Green, Hudson, had a canoe trip from the Dan Babbitt resort to the Connor Bridge flats, Sunday. They reported a fine trip and no mishaps.

Mr. and Mrs. John Wahlstrom have moved to the property on Spruce street which they recently purchased from Walter Hanson. Mr. and Mrs. Wilfred Laurant who were occupying the place have moved to the former Kuster property on Michigan avenue which they have purchased.

Carlton Wythe family who have been living there are moving to Lake Margrethe to camp for the summer.

Holger (Dad) Hanson is driving a new Nash sedan, purchased in Bay City.

We're still dancing at the Temple every Saturday night. Gents 35c and ladies free. Music 9 to 1 o'clock.—Frank Bridges, Mgr.

During the electric storm Tuesday afternoon, lightning struck the James Tobin home in Frederic, doing damage amounting to about \$100.

Miss Ann Brady came home Tuesday morning, having finished her course at the Jackson Commercial school in Jackson, which she has been attending.

Jess Schoonover accompanied Mrs. Schoonover to Lapeer Wednesday where she will visit her sister, Mrs. Blanche Goodale who is ill.

Mrs. G. A. Kraus had as her guests for the week-end, Mr. Kraus, Mr. and Mrs. A. L. Weber, and Mr. and Mrs. Stearns, of Chicago.

Carlisle Barber left Monday evening to spend a week at A Century of Progress in Chicago and will also visit friends in Detroit.

Mr. and Mrs. E. N. Darveau, Mr. and Mrs. Phil Quigley, Miss Lura Ensign and Lawrence Kessler spent last Sunday in Alpena visiting Mr. and Mrs. Milo Thorne and Miss Jean Thorne.

Mr. and Mrs. Jack Clark and family, who recently came here from Roscommon have moved into the Harry Hum house. They are employed by the Tri-County Telephone company.

Albert Kraus and Matt Weber are enjoying a two weeks' vacation from Armour Technical School in Chicago, and are the guests of the former's mother, Mrs. G. A. Kraus at Lake Margrethe.

Mr. and Mrs. C. E. Johnson of Detroit have arrived at their lovely new summer home on the AuSable for the season. They brought with them Mr. and Mrs. Al Hedrick and Mrs. A. P. Weiss who are their guests for this week.

The H. O. Buelteman family of Detroit arrived the latter part of the week at their summer home at Lake Margrethe for the season.

The interior of the postoffice building has been treated to a fresh coat of paint, making it nice and clean again.

Mrs. Lewis Burr and daughter Marion and son Floyd of Saginaw, arrived in Grayling Wednesday enroute to Houghton, Michigan.

Mrs. Holger Hanson joined them and is spending a week with her sister Mrs. William James in Houghton.

The Ladies Aid society of the Michelson Memorial Church have elected the following officers to act for the year 1934-35: Pres., Mrs. Corwin; 1st Vice Pres., Mrs. Darveau; 2nd Vice Pres., Mrs. Gove; Treasurer, Mrs. T. P. Peterson; Secretary, Mrs. Poor.

Mr. and Mrs. Frank Tetu and children of West Branch, Mrs. Joseph Collier and granddaughter Bernadine Adrian and Mr. and Mrs. Archie Collier of Standish were in Grayling Sunday to bid goodbye to Mrs. A. E. Underhill, who was leaving for her home in California that day.

Mr. Cornell's baseball league is now in full swing. Games are played frequently and everyone has a good time, although competition is keen. It is too early as yet to predict the winner as only a few games have been played so far and the pennant is still very much fought for.

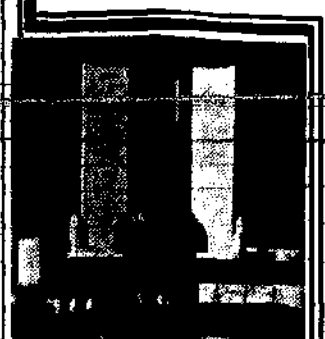

Mrs. A. E. Underhill, after a month's visit here, left Grayling Sunday for Inkster to visit the Max Landsberg family until Wednesday when she would be leaving for her home in Monterey Park, Calif. She is taking her niece Miss Mary Rasmussen home with her and the latter will remain in California indefinitely.

Mrs. Henry Bousson and Mrs. Frank Tetu of West Branch made the trip to Inkster with them.

Andrew Jensen left Tuesday for Bay City to spend a few days visiting his sister Mrs. F. J. Reinhardt, before leaving for Spokane, Washington, where he expects to remain. He formerly made his home there but returned to Grayling 7 years ago owing to the ill health of his parents, who have since passed away. He follows the lumbering game and is returning to work for his former employer. Enroute he will stop in Chicago to take in the World's Fair.

An early morning blaze at Camp Higgins CCC Camp No. 672 destroyed two barracks and the exchange buildings. The loss is estimated at about \$5,000. It started at about 4:00 o'clock a. m. and the flames were fanned into a fury by strong hot winds. By the heroic efforts of the officers and men the remainder of the camp buildings were saved. It is the opinion by some of the men that the fire was caused from defective electric wiring; others believe it came from a lighted cigarette. Occupants of the burned buildings lost practically all their personal belongings.

Don't miss the Rummage sale in basement of Michelson Memorial church Friday and Saturday. Mr. and Mrs. Guy Wheaton (Lillian Doroh), of Branch, Mich., spent the week end here visiting her parents, Mr. and Mrs. Herman Doroh.

Donald Armstrong and daughter Jean, of Detroit, are camping on the AuSable river for several weeks. Mrs. Armstrong will arrive this week to join her husband and daughter.

Mrs. E. G. Shaw was hostess to the Ladies Aid of Michelson Memorial church Friday afternoon at a pot luck luncheon. Some twenty-two were present and enjoyed being at the delightful cottage on the river.

Workmen started Monday razing the west half of the Botsen block. Mac & Gidley's drug store will remain in the other part until their new quarters are completed. After that the east half will be replaced.

Carl Doroh is enjoying a vacation from his duties at the Post office and with Mrs. Doroh and daughter Wanda and his parents Mr. and Mrs. Herman Doroh left Tuesday for Munising to visit relatives and friends.

Miss Jennie Ingley arrived Friday after spending the winter in Detroit to be at her home at Lake Margrethe for the summer. She was accompanied by her niece Miss Gladys Wheeler and Mrs. Kerpis and son and daughter, who spent the week-end here.

Miss Grace Parker, daughter of Mr. and Mrs. Herbert Parker, graduates from Edward Sparrow Hospital in Lansing Friday evening, June 8th. Miss Parker has been in training in Lansing for the past three years.

Mrs. John Holliday of St. Helen, just returned from Detroit where she had the pleasure of attending the Mothers and Daughters banquet given by the General Pershing camp of the Ladies National League. She also visited in Cheesaning and vicinity.

Mr. and Mrs. W. C. Masters and Mr. and Mrs. Lloyd Masters and daughter Sally Ann, of Detroit, spent the week-end visiting at the home of Mr. and Mrs. E. N. Darveau. Mrs. Lloyd Masters and daughter remained for a longer stay.

Miss Norma Pray has finished her commercial course at the Traverse City Business school and returned home. Miss Norma, who is the granddaughter of Mr. and Mrs. Frank Lydell, during her school days in Grayling school was found to be very dependable and no doubt would be an asset to any firm needing help in line of work.

The Log Office Says

Interesting bits of news and comment about Northwestern Michigan gathered by the E. E. T. A.

C. C. Nunn and BenASURE called at the Log Office the other day, reporting that plans for the Bass Aqua Fest, scheduled for June 22-24-25 at Mio-On-The-Ausable, are going forward rapidly.

Located in the heart of the Huron National Forest, Mio boasts of the only county seat in Michigan bounded on all sides by forest area.

On its program the committee lists a seasonal parade, trap shooting, swimming races, water sports, fly and bait casting and possibly an archery contest of an unannounced nature.

It is the Ausable Community's initial attempt at popularizing and advertising its natural wealth and it promises to be a success.

Another recent Log Office visitor was Paul D. Kelleter, Huron National Forest Supervisor. During the course of his conversation Mr. Kelleter revealed the approval and appointment of a landscape architect to the 550,000 acre tract for the express purpose of making a detailed and thorough study for landscaping the area surrounding the Lumbermen's Monument.

The \$50,000 Bronze Figure flanked on all sides as it is by the natural beauties of the forest, has always been the object of much suggested beautification. The new landscaping movement has that in view.

Requests for information regarding vacations in East Michigan have come in so rapidly, the

Log Office has found it necessary to employ three additional clerks to handle the correspondence. Looks like a great season!

To bridge the gap between the first inquiries for tourist information and the publication of the East Michigan Tourist Guide and Blue Book, the Log Office this year put out what its author terms "The Scotch Pamphlet," a small folder dealing with East Michigan in a general way and containing several attractive photographic layouts.

So great was the demand that the first printing of 15,000 soon vanished. A second allotment was ordered. It too went in a hurry. A third was called for, but with this printing the cover was changed from a bright red, suggestive of warm weather, to a deep blue, so characteristic of the lakes of the region.

The last printing more than two-thirds disposed of, plans are to issue a fourth, raising the total to 50,000, to supplement the Guide.

The pamphlets don't go out aimlessly, however. A large order running into the thousands is filled with a few hundred and accompanied by a letter stating that more may be had when that supply is exhausted.

Substantiating reports coming into the Log Office daily, Judge Horatio S. Karcher reveals that cottages in the Rose City area are filling more rapidly than last year.

Many Interested In Leonard Refrigerators

With the beginning of summer in this section of the country, public interest in electrical refrigerators has increased considerably, according to Sorensons Furniture Store, local representative of Leonard Refrigerator Company. More people are visiting the display room at their store to inspect the new Leonard refrigerators today than at any time so far this year, they say.

Announcement was made that immediate deliveries will be made on all Leonards, as the local company anticipated a heavy public demand and prepared for it by placing early orders with the factory in Detroit.

"Models for the smallest and largest of families are being presented by Leonard this year," Mr. Sorenson announced, "and they are priced and financed so that they are within the means of practically all families."

"Of most interest to men and women who are viewing our show-room are the many improvements made in the new electric refrigerators. Especially are they interested in the new temperature control, which offers 12 freezing speeds and provides practically every degree of cold needed in the home. On the same control panel there is an automatic quick freezing lever. When this is thrown over, the temperature in the cooling unit quickly drops down to about 8 degrees above zero. As soon as this temperature is reached, the bottom tray of water is frozen solid and water in the tray is about three-fourths frozen. Then the lever automatically trips back and the temperature rises to normal in the freezing compartment."

"This feature assures an adequate supply of ice cubes despite the demand and the heights to which the mercury may soar. It is also a boon to the hostess in preparing frozen desserts."

"These 1934 Leonards are the most complete refrigerators ever presented by our organization."

LOVELLS

(By Cora Nephew)

Bill Hahburg and little daughter of Detroit are visiting friends in Lovells.

Leonard Clement, Carl Clark, John Galsavage and Dr. Barkley, of Detroit, enjoyed a few days at Big Creek Club.

Paul Ketter had a few friends invited to spend the evening with his wife, who is visiting him from Detroit.

Mr. and Mrs. Harry Morris and son of Detroit are enjoying a two week vacation at the club.

Mr. and Mrs. John Peterson, Mrs. Small and Doris Small, of Lansing, Mich., and Mrs. Small, of Detroit, are visiting with Mr. and Mrs. Peterson.

THROUGH A Woman's Eyes

By JEAN NEWTON

SOME BABIES LIKE SNAKES!

TWO groups of eighteen-month-old infants were placed in two separate rooms—and snakes permitted to run around among them. Oh, yes, the snakes were harmless, had less possibility for harm even than any new-born puppy!

Now for the result. The group of children from normal homes screamed with fright. The other, consisting of babies born and raised in the hospital, allowed the snakes to crawl over them—in fact, they "watched them with delight!" The point made by the scientists who sponsored that experiment is that one's fears are not natural or instinctive, but implanted. The babies in the hospital had been isolated from the "fear-suggestions" against snakes which are planted in most children.

All that is, of course, of interest to us. What is more important to all of us, is the implications, which we cannot escape, that in every department of life we "grow our own fears."

The worries which, according to doctors, are the chief burden of modern life, therefore the worries that kill, are the result of special fears. And so many of these special fears have no more basis in fact than the fear of children against the wiggling snake. So many of our fears are implanted and cultivated long before there can possibly be any sense to them.

It would be a good plan to "take inventory" of our fears, to bring them out in the open, set them up where we can look all around them and analyze them and track them down—to what they really are.

There is one fear—or distrust, which is the same thing—that is perhaps more of a burden to us in everyday life than any other. That is the one that has to do with people because they happen to be different from ourselves. Adults in this enlightened age allow their viewpoints to be warped by no more intelligent distrust than that of the child who has a horror of an Chinese because "yellow men eat children" and of Italians because a demented Italian "burnt the barn down." Fear myths of that kind, of course, exist in direct proportion with ignorance. But there are some so deep-rooted emotionality that even education does not always eliminate them. We can combat them only by bringing them out in the open and testing ourselves against them—the way scientists test to overcome their doubts.

By Jean Newton, WNUO Service.

Post Mortem

Post mortem is any mass from which post is formed, especially spring-mass, a type of mass which grows only in swamps or in water, where, by annual decay, they build up layers of peat. Post mortem is employed by doctors in packing potted plants and for other horticultural purposes.

HOSPITAL NOTES

Lawrence Pierson, eleven month old son of Mr. and Mrs. Glenn Pierson of Lovells, entered Mercy Hospital Sunday.

Mose Collins, of South Branch, entered Mercy Hospital Monday.

Gaston Gorman, of Houghton Lake, was admitted to Mercy Hospital Saturday.

Mrs. George Granger was dismissed from Mercy Hospital Wednesday.

Mrs. David Kornelio, of Houghton Heights, was dismissed from Mercy Hospital Wednesday.

Eleanor Bugby, daughter of Mr. and Mrs. James Bugby, had her tonsils removed at Mercy Hospital Monday morning.

GRANGE NOTES

Don't forget the Grange bake sale and baking contest to be held at the Grayling Hardware, Saturday, June 9th. All contestants are requested to have their bake goods there by noon—12 o'clock.

Will all Grangers please bring donations for the bake sale Saturday by 2:00 o'clock.

Grangers, don't forget to have that name in by June 10th.

Economics Committee: Florence Wakeley, Mattie Rotargo, Bertha Williams, Carrie Feldhauser.

"OUR GANG" MEETS

Mrs. Earl Broadbent was hostess to twenty members of Our Gang last Thursday afternoon. The afternoon was spent in the way of a birthday party for the following ladies who had birthdays in May: Mrs. Dewey Palmer, Mrs. George Woods, Mrs. Barton Wakeley and Mrs. Charles Corwin. The ladies received gifts from the club.

The "Thought for Today" was given by Mrs. Henry Hayes.

The following members were appointed to attend the Red Cross meeting to be held June 7th in Maple Forest at the Jewell home: Mrs. Dewey Palmer, Pres., Mrs. Kenneth Chase and Mrs. John Stephan. Everyone is invited to attend this meeting.

Mrs. John Stephan was given the Penny prize. Keno prizes were given to Mrs. Frank Serven, Mrs. Chas. Corwin, Mrs. Sherman Neal, Mrs. Henry Hayes, Mrs. Andrew Beck and Mrs. Geo. Woods. Guests of the club were Mrs. Ben Pankow and Mrs. Archie Brown.

A very nice lunch was furnished by the committee and a very pretty decorated birthday cake was passed also which was made by Mrs. Sherman Neal.

The next meeting will be June 14th at the home of Mrs. William Williams.

Find Roman Statues on Seine. Roman statues—found near the head waters of the Seine river, France, indicate that a temple once stood there.

BIDS WANTED

For furnishing and delivering coal in court house and jail building for Crawford County at Grayling, Michigan.

Sealed proposals will be received by the County clerk of Crawford County Grayling, Michigan up to one o'clock P. M., E. S. T. of the twenty-fifth day of June, 1934 for furnishing and delivering approximately eighty tons of coal in the basement of the court house and jail building of Grayling, Michigan.

All proposals must be submitted in sealed, plain envelope marked, proposal for furnishing coal.

Bidders should state unit price per ton delivered in basement of court house and jail building. Bidders should state size, analysis, kind and quality of coal. Bids will be open, publicly at the court house at said village at the session of the Board of Supervisors, beginning June 25th.

The right to accept any bid or to reject any or all bids is reserved by the County.

Axel M. Peterson, County Clerk.

6-7-3

Weight of Brains. Generally speaking, the male human brain weighs more than the female, although the relative weights of the brain and body are about the same. The average weight of the male brain is about forty-eight ounces and the female brain forty-three ounces. The human brain is heavier than that of any animal in proportion to his size. Whales have the largest brains.

Right at the peak of Chevrolet popularity—with nationwide demand sending production to new all-time "highs"—Chevrolet dealers are displaying an additional group of four new models. These cars are identical in quality with all 1934 Chevrolets. And the prices have been set at such incredibly low figures that you can now buy a Chevrolet for \$465! "A Chevrolet for \$465!" That's the world's lowest price for a six-cylinder car. The lowest price, also, for a car of this size, wheelbase and power! And a figure that sounds even more impressive after you find out what it buys: A great big, full-size, long-wheelbase car, 169 inches from bumper to bumper. A cushion-balanced SIX of surprising smoothness, power, snap and dash. The most economical full-size car that money can buy—a record-breaker for gas and oil mileage, as well as long, dependable service. And every closed model has a Body by Fisher. Nobody interested in motor cars can afford to let another day slip by, without seeing this "Chevrolet for \$465!"
